No duty in life, perhaps, is more imperative than that of making a will. No duty is oftener disliked. Surely a thing upon which depends the welfare of those for whom a man chiefly lives should not be pushed aside.

In the making of a will, as well as in provision for its execution, many things to be considered beforehand, if properly considered, avoids a world of trouble afterward; prevents the very purpose and intent of the act from being defeated. THE INDIANA TRUST COMPANY presents special advantages in its facilities and opportunities for valuable service in the matter of wills. It is open at any time for advice or consultation; is able to present considerations of great

At New York, yesterday, money on call was easy at 2 to 3 per cent., the last loan

being at 3, closing offered at 21/2@3. Prime mercantile paper, 7@10 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.874 @4.874 for demand, and \$4.85@4.854 for sixtyday bills. Posted rates, \$4.86@4.88. Commercial bills, \$4.834 @4.834.

Silver certificates, 744c. At London bar silver closed at 33%d.

The clearing-house loan committee, yesterday, retired an additional amount of \$415,000 of loan certificates and \$150,000 more have been called for to-day.

With the exception of a very brief period just after the opening, speculation on the New York Stock Exchange Monday was heavy in tone, and a decline was recorded which ranged from 4 to 434 per cent., and which extended almost throughout the entire list. For the first time, perhaps, since the recent appreciation in speculative values has the market received a serious set-back. The reaction which set in at the very opening of business has in it the elements of real danger to the bull side of the street by reason of the fact it was based on conditions, all of which tend toward the unsettling of the financial situation of the country. Until to-day there was a pretty general feeling that it were better to defer extensive trading on either side of the account until something definite should be reached in regard to the silver question, but the foreign holders American securities and the foreign money lenders have become timid, and selling orders from London were quite numerous to-day. They were in excess of the buyers, and when the bears had become emboldened and were in for a vigorous campaign. The advance in the rate of exchange, bringing German bills above the shipping point of gold and sterling exchange dangerously near thereto, helped materially to depress the mar-ket, inasmuch as it led to rumors of immediate gold exports and set the street to talking about the probable outflow of the precious metal. As a matter of fact, there is no profit in shipping gold at the existing rates of sterling exchange, but the small-ness of the margin to be passed before touching that point is not reassuring to the speculative fraternity. It is remembered. too, that exchange is now at the figures when the last heavy gold shipments were made. One banking firm announced its intention to make a gold shipment this week, but gave no figures, and it is not believed the amount will be large. No gold engagements have yet been made, and beyond this one instance no banking house expresses an intent to go into the gold export business in the near future. But the uncertainty of the situation was inimical to an upward movement on the exchange, and the bears came out in full force and did a little hammering at every stock on the list which gave way, in turn, although the industrials were held very strongly and were the last to succumb to the general depression. There were no sustaining orders from the outside, and not a little long stock was shaken out of the more timid holders, so that prices sagged almost without a rally and closed at the lowest point of the day, the final dealings

being very heavy in tone. The railroad bond market was weak, in sympathy with the share speculation, the main declines being Michigan Central, Chesapeake & Ohio, R. & W. division first consols, Ohio Southern fours. Government bonds were steady and State bonds dull. Closing quotations were:

INDIANAPOLIS GRAIN AND PRODUCE A Duil Day on the Street-No Changes in the Wholes de Market.

The week opened with the customary dullness in the wholesale markets. Drygoods men were doing practically nothing. In groceries there was a little trade, but not enough to give an air of activity to business. Prices on all staples were steady, with coffees very firm. The prospect is that canned goods will rule high the coming season. The pack has been light, owing to the short fruit, berry and vegetable crops: but, judging from the samples shown, the goods will be of excellent quality. The fruit and vegetable market was well supplied for Monday, and the inquiry was tairly good. On Change business was dull. There was little inquiry for any of the cereals. Wheat was unchanged, but both corn and oats advanced, the former about 1c and the latter &c. Receipts continue light. Closing bids were as follows:

WHEAT LOWER AGAIN

After a Firm Opening the Price Dropped and Closed 5-8c Down.

Lighter Receipts Gave Corn a Slight Boost While Provisions Were Firmer and Closed Higher.

CHICAGO, Sept. 25 .- Increasing stocks caused weakness in wheat to-day, notwithstanding large expert clearances. Corn advanced on expected lighter receipts locally. Compared with Saturday night wheat is % s down and corn %c up. Provisions show gains from 5c to 35c, near-by options being the firmest. Wheat, at the opening, was rather firm, and prices 4c higher than Saturday's closing, then became weaker and deslined 4 @ 3sc and closed 100% lower than Saturday. The early strength was influenced by the reported decrease of 1,104,000 bushels in quantity of wheat and flour on ocean passage and smaller shipments from India, which were reported at 580,000 bushels less than the preceding week. There were quite a few buying orders, some parties evidently thinking the market favorable for a reaction. But the offerings were liberal, cables were lower and the conditions favorable for plowing and seeding. The visible supply statement about answered expecta-

Corn opened at about the final figures of Saturday, and after selling off a fraction sold up 4c and remained quiet for a while, but again firmed up, advancing another 4c, reacting 4c later, changed some, and closed at 4@ sc gain. Severe frosts, revery little figure, as it is what is now needed for curing.

There was a moderate trade in oats and a steadier feeling, especially for the near futures, which advanced & @ &c. while May only advanced 3sc, and closed at the out-

The provision market was firm on higher priced hoge, but there was no speculative demand from any outside point. Stocks are very light, the demand for cash product is reported good, but the speculative crowd apparently can see nothing but danger to themselves in meddling with the market on either side under present conditions.

Vessel room was in good demand, and rates 4 @ he higher to Buffalo, at 2e for wheat and 134e for corn, and to Kingston at Sc. Estimated receipts for to-morrow are: Wheat, 230 cars; corn. 775 cars; cats, 280 cars; hogs, 16,000. The leading futures

MINNEAPOLIS, Sept. 25. - The cash wheat market was active, but at the expense of values. The receipts were large and the demand good at current prices for the best qualities. Low grades were hard to move, and at noon holders were anxious as to having to carry the stuff over. No. 1 hard sold at 64@6442c; No. 1 Northern, 62@634c; No. 2 Northern, 60@62c. Wheat on track closed: No. 1 hard, 634c; No. 1 Northern, 624c; No. 2 Northern, 604c. Receipts, 714 carloads; shipments, 80 carloads. There was very little change in the floor market. The weakness in futures makes buyers more backward, and the market was slower, though sellers so far have not reduced their asking prices. Inland rates are firm. Freight rates through to Liverpool are quoted to-day at 40c per 100 pounds, and about the same to London. Shipments, 40,-559 barrels. Dry Goods. NEW YORK, Sept. 25. - The week opens with business fairly active in most departments of the dry-goods market. Prices bave not varied in any important degree, but show some irregularity owing to the fact that assortments are not completed in some departments, so many of the New England mills remaining closed fearing tariff discussion. There is a fair amount of new business in cotton goods, of which all kinds of seasonable makes are holding their own and in many instances are sold ahead. There is an increased export demand and well sustained domestie demand. Ginghams and woven fabrics sold well up to production at steady prices. Prints and printed fabrics are still in good demand on country orders, but quiet as to local trade. There is some falling off in the demand for printing cloths. Dress goods and woolens are selling well on mail orders, and the market for foreign dry goods is also steady with a fair demand Cotton warp and filling yarns show increased activity without change in prices.

Profiting by the Story.

Harper's Young Peop'e. Bennie's father had been telling him the story of George Washington and the cherry tree, and Bennie was much impressed. A few days later Bennie came into his father's presence eating a cooky. Said his father: "Who gave you that cooky, my boy!" "I took it myself," replied Bennie, taking another bite. "Took it yourself? Why, didn't I tell you never to help your-self to cookies?" "Why, father, I thought you'd rather lose a thousand cockies than for me to tell a lie!"

The Democratic Way. New York Mall and Express.

President Cleveland sent to Hawaii a Paramount Commissioner who hauled down the American flag, and he proposes to send as embassagor to Italy a man who is charged with having said that "America is no fit ptace for ladies and gentlemen to live in." The Democratic majority of the House committee on ways and means gave foreigners every privilege during its hearings on the tavift. Democracy in office is a stranger to stalwart Americanism.

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs given are especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation.

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having a possible bearing on Indiana interests.

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sanday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape.
